JOHN C. FAIN

## TO THE REPUBLICANS OF KNOX COUNTY

I hereby announce myself a candidate for the Republican nomination for Juvenile Judge of Knox County, subject to the action of the Republican Primary of March 21st, 1918.

I have taught a number of public schools in this State and know how to deal with children and their parents. I have practiced law at the Knoxville bar for more than twenty years, and I feel that I am as well qualified to perform the duties pertaining to this office, both for the benefit of the public, and the rising generation, as any man in Knox County.

I have been a life long Republican, have always worked for the interest of the party, and I earnestly appeal to all Republicans to favor me with their active support and influence in the primary and if nominated and elected, I will devote my entire time and abilities to performing the duties of the office for the welfare of all concerned. I will certainly appreciate your active support and influence in the primary.

Sincerely yours,

**JOHN C. FAIN**

## RUSHED EMPTY CARS WEST

Railroads Make Provision For Emergency Caused By Flood Conditions in Country.

Washington.—Fearing serious floods in the Middle West and South within a few days the Government Railroad Administration rushed empty cars westward from the eastern congestion area to provide for an emergency movement of corn to elevators and cotton to southern seaports for transshipment to New England mills engaged on Government orders. This was undertaken without any diminution of efforts to transport coal from the mines to consumption points, where the fuel reserves were reported as near the zero mark as at any time within the last two weeks.

## PLANS FOR RUSHING TROOPS

Wilson and Hurley Take Up Problem of Speeding Up Army Movement to France.

Washington.—Problems in regard to the movement of American troops and supplies to Europe were discussed in detail by President Wilson and Chairman Hurley of the Shipping Board. The President particularly was interested in the proposal to obtain additional ships by reducing imports probably one-half. However, every phase of the question was discussed, including negotiations with European neutrals for tonnage to release American vessels for overseas service, the Government shipbuilding plan and schemes for obtaining allied steamers for transporting soldiers.

Lightship Drifts to Sea.  
Nantucket, Mass.—The Cross Rip Lightship, the beacon in Nantucket Sound which marks the channel between Vineyard Haven and Cape Cod, is drifting to sea, with 10 men aboard. The lightship broke away from its anchorage as great drifts of ice pressed about it, and later was reported fully 25 miles from its station. Efforts were made by government vessels to get within reach of the lightship, but they were held back by ice.
